

RUGBY SCHOOL

SHORT COURSES

31st March 2026

Re: Supporting Rugby School Short Course Applicants.

Dear Parents and Students,

We recognise that many families are currently navigating a higher degree of uncertainty when planning international travel this summer. Global developments—whether economic pressures, higher travel costs, or some regional instability—naturally prompt careful consideration when making decisions about overseas programmes.

In light of the current climate, we feel it is important to respond thoughtfully and constructively. To support families who are keen to benefit from a Rugby School Short Course experience this summer, we are offering a significant 15% (£750.00) reduction in course fees for our two-week programme.

This does not reflect a change in our programme standards or expectations, but rather a considered gesture to help ease the practical concerns that may accompany your decision.

This offer is extended through our global partners who will be happy to represent you with managing booking and travel plans. We very much hope to welcome you this summer and would be pleased to speak with you personally should you wish to discuss any aspect of the programme.

With best wishes,

Andrew Burden
Head of Programmes
